INSPIRATION AT YOUR FINGERS TIPS

Choosing a new kitchen can be a daunting process. So many styles, colours, finishes and accessories to think about, not to mention all the functional considerations – Where to put the oven in relation to the fridge? Will you have an eating area? What about waste solutions?

Your chosen kitchen retailer is there to help you navigate all those crucial decisions, but we've also designed the kitchens in this brochure to help inspire you too. You'll find tips on how to style your kitchen throughout the brochure, and if you like what you see, your kitchen retailer has access to all the sinks, taps, splashbacks, handles, storage accessories, appliances and lighting on these pages through Häfele. Just ask for details.

Lighting is key

Something many people don't think about, clever lighting in your kitchen is a sound investment, and the perfect way to make your space go from functional for cooking, to atmospheric for entertaining. Ask your retailer about Loox lighting from Häfele.

Splash of colour?

If you're just looking for a splash of colour, look at things like your splashback or even your sink and tap to create some unexpected interest. Many appliances also come in a great range of colours these days too.

Mix and Match

Fancy a bold colour but not feeling confident enough to go all the way? Many of our doors have been designed to mix and match so you can just add a small element of a stronger colour to highlight an island or feature unit.

Don't forget the details

Something as simple as your choice of handle can completely change the look and feel of your kitchen.

Traditional country, contemporary modern or somewhere in between, our doors collection offers something for everyone.

SKYE

A cool, smooth classic slab door, Skye's sleek finish makes it a versatile choice. With five colours in the range, and a choice of matt or gloss finish, it can be styled to create a number of different looks for any home.

The Charles pendant light is finished in polished chrome and has a hand blown clear glass shade. Elegant and under-stated.

The Smeg Portofino range is as impressive technically as it is aesthetically. They are the most energy efficient large cookers on the market, and are available in a range of eye popping colours, as well as the stainless steel version shown here.

We've added Alusplash behind the hob in Blueberry to tie the scheme together.

The subtle strip of light from the Loox LED ribbon used along the plinth really sets off the streamlined handle-less design of the Stirling door.

We've used our copper worktop as a splashback in this design to create a real focal point in this open-plan kitchen. It has been teamed with our Minerva worktop in Caramel Crunch to complement the warm tones.

The Oberon pendant light in copper makes a real centrepiece of the dining area.

The trend for warm coppery tones is still going strong. Here we've paired our Stirling door in gloss ice white with a copper splashback and accessories for an unexpected twist.
