Specification

- 230-250V~50Hz
Max. 3250W 13A

Pack Contents:

Pop-up socket	x 1
Fixing pack	x 1
Instruction leaflet	x 1

PLEASE READ THESE BEFORE COMMENCING INSTALLATION AND RETAIN FOR FUTURE REFERENCE.

- If the external flexible cable or cord of this socket is damage, it shall be exclusively replaced by the manufacturer or his service agent or similar qualified person in order to avoid a hazard.
- This is a Class I product. Must earth.
- If in doubt regarding these installations, consult a qualified electrician.
- CAUTION: Risk of Electric Shock - For indoor use only

USB CHARGER SPECIFICATION

- Output Voltage : 5V DC
- Output Current : Max. 2100mA
- Individual switch for power on / off
- LED indicator function when power on
- CAUTION : It is not applicable for the digital products with internal protection or the ones requiring driving programme

RJ45 DATA SOCKET SPECIFICATION

- RJ45 8-connector, category 5 standard
- Contacts are phosphor bronze plated with hard gold.
- Superior performance and low loss signal transmission.
- For cable extension use only, please make sure the extend cable is connected to suitable data socket before use.

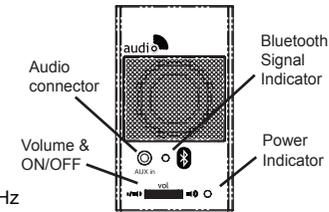

According to Waste of Electrical and Electronic Equipment (WEEE) directive, WEEE should be separately collected and treated. If at any time in future you need to dispose of this product please do not dispose of this product with household waste. Please send this product to WEEE collecting points where available. Do not dispose this product as unsorted municipal waste. Collection of such waste separately for

MINIATURE AUDIO SPEAKER SPECIFICATION

- Output Power : Max. 2W
- Sensitivity : L/R 380MV
- SNR : >80db
- Speaker Frequency Range : 280Hz-16KHz
- Audio Connector : Standard 3.5mm headphone connector
- Suitable for all music player, include MP3, MP4, Smartphones, iPhone 5, iPad, Android Phones.
- How to Connect to Bluetooth
- Switch on the power, you will see the bluetooth signal indicator start flashing.
- Open your mobile device and turn on the bluetooth function, connect the device named "Kengo" or "Kengo0001" (note: if the name showing Kengo0001 it means the number digit would be different.)
- Then press connect to the device, if the connection ok, then you will hear a "bip" sound and the bluetooth signal indicator flashing a different frequency.
- Onced connected, you can start play the music now.

MAINTENANCE

- Ensure that to disconnect the power prior to cleaning.
- To keep the finish of this product, wipe over with soft cloth periodically.
- Clean the socket with a damp cloth and mild detergent, dry immediately.
- Do not use harsh chemical solvents, it may dis-color or damage the finish.
- Never force to life up or push down – always check that there are no obstructions that could interfere during retraction.

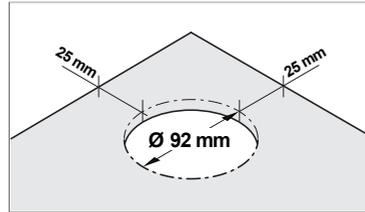

INSTALLATION

The installation may only be carried out by an electrical specialist in accordance with international and national standards.

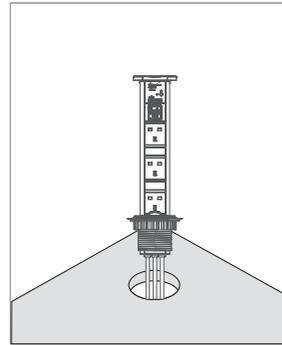

- 1 Cut out 92 mm diameter hole in work surface. Allow minimum 25mm clearance surround the cut hole.

When choosing location, select a surface between 10mm and 50mm thick.

ATTENTION: Ensure there is sufficient space under the installed surface, for the unit when it retracts to the closed position.

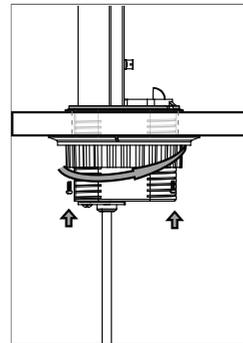

- 2 The locking ring with rubber washer is supplied in the packaging. If attached to the mounting collar, remove it by rotating it in an anti-clockwise direction prior to lowering the unit into its final location.

- 3 Insert socket into the hole.

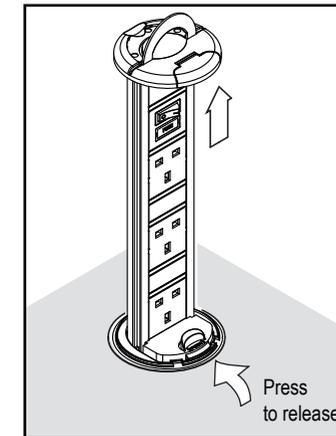

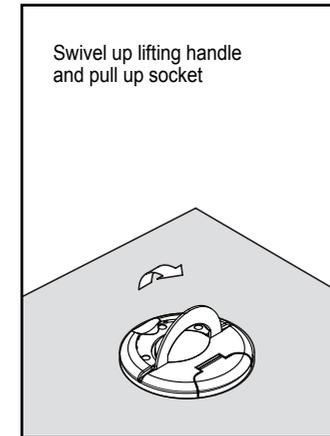

- 4 Place locking ring into collar. Identify and align arrows on collar and locking ring to ensure the thread is engaged properly. Turn the locking ring clockwise to tighten. Make sure rubber washer is compressed tightly on underside of surface. Tighten the screw until the ring firmly grip the surface.

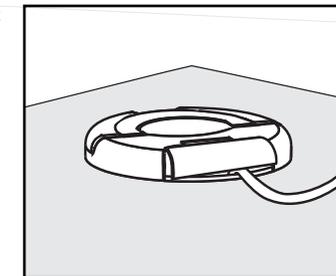

- 5 Connect cable to power supply, once work has been completed correctly, the product is now ready to use.

OPERATION

- 1 To use the Pop-up Socket, gently lift up the silver handle on the top cover until all socket outlets are exposed and the orange stop/release button clicks and locks the unit in place.

- 2 Press the master switch on. An orange light confirms that power is available. You can use all the power sockets. The unit can be retracted in position by pressing the orange stop/release button and push the unit down until it is flush with the surface. And leaving the engaged cables on the window of the top cover.

ATTENTION:
Only use the silver handle to lift the unit.

ATTENTION:
IP54 is only available when remove all plugs from socket and in closed position.
